

Mohammad Nazeemoddeen

Java Full Stack Developer | 1 Month Notice period | 4.10+ years | [Linkedin:/nafimohammadcs](#)
[Github:/nafi635](#) | nazeemoddin.cs1635@gmail.com | +91 9652598983 | Hyderabad, Telangana.

EDUCATION

IIIT BASAR

B.TECH IN COMPUTER SCIENCE
Cum. GPA: 8.8 / 10.0
2014 - 2018 | Telangana, India

IIIT BASAR

M.Bi.P.C | Cum. GPA: 7.9 / 10.0
2012 - 2014 | Telangana, India

SVNHS HIGH SCHOOL

GPA: 10.0 / 10.0
March, 2012 | Karimnagar, Telangana

TECH STACK

Back End Development

Java 1.8+ • Spring Boot • Micro services
•Kafka • Hibernate • PHP

Front End Development

Angular 15+ • Typescript • Javascript •
Flex • Angular Material • Retool UI • JSP
• Tailwind CSS • Bootstrap • HTML5 •
CSS3 • Figma UX • React Js (Familiar)

Database

SQL • Postgre SQL • Oracle
• JDBC • Graph QL • Liquibase

Familiar

• Docker • K8S • CI/CD • Circle CI
• Jenkins

Miscellaneous

Monitoring :: • Datadog • Open telemetry
Build Tools :: • Gradle • Ant • Maven
Work Management:: • All Atlassian •
Coda
Other tools:: • npm • Postman • SQL
Developer • PGAdmin

PERSONAL PROJECTS

- Website for Consultancy(Angular,Java)
- IIIT Basar Alumni web app (Java + JSP)
- My Village Seva tool(PHP)

INTERESTS

- End-to-End Application • Sports -
Badminton, Football • Entrepreneurship

CERTIFICATION

Programming With Mosh
Oracle Java (Free)
Udemy courses

EXPERIENCE

JARUS TECHNOLOGIES | SENIOR SOFTWARE ENGINEER

RB Marketplace Control, Asset Management System, Ritchie bros.Auctioneers
June 2019 - Present | Hyderabad, India

- Developed asset management enterprise applications using Angular and Spring boot, worked on the production, and implemented end to end seller experience project.
- Full-stack developer - Worked with Angular and Java Spring boot applications using micro services architecture, and delivered some of the enterprise tools for a respected client.

JARUS TECHNOLOGIES | JUNIOR SOFTWARE ENGINEER

FAMI Insurance | Rating Engine | Dec 2017 - May 2019 | Hyderabad, India

- Hands-on experience on real-time project back end developer tasks, using Java and spring boot, for a client called FAMI insurance company where we developed an enterprise project on the insurance domain.

IBM CE | DEVELOPER INTERN STUDENT

Multi Recharge Application | May 2017 - July 2017 | IIIT Basar, Telangana

- Worked under IBM's career education program as a developer intern where I developed end-to-end web application.
- Created end to end telecom provider recharge options application using Java, Servlets, HTML, CSS, Bootstrap

WORK SUMMARY

- Implemented end-to-end enterprise grade applications using Angular and Java Spring boot for the world's second largest auction market client called RitchieBros. Auctioneers clocked revenue of 1.7B last year which is 25 percent hike year on year.
- Experience with various domains like Insurance, Automobile selling, and Auction management.
- Designing and implementing micro services applications using the spring boot framework and have experience on how streaming technologies work in between micro services such as Kafka.
- Developed end user facing applications using Angular Material, Flex, Retool React UI, Tailwind CSS, and other web technologies.
- Created multiple private angular libraries using npm such as custom data tables, custom made requirements, and relevant UI components for my previous client project and published them in the form of npm libraries
- Experience communicating with and writing REST API Services, debugging them, and testing throughout Postman API.
- Worked on monitoring tools such as Data dog and open telemetry service, Atlassian products such as Git for version control, Source tree, JIRA for project tracking, and Confluence for Project Wiki
- Have experience with build tools like NPM, Gradle, Ant, Maven, and log4j, sl4j for logging, JUnit for unit and performance testing, and Liquibase to manage database schema changes.
- With excellent documentation skills, collaboration skills, Problem-Solving skills, and good communication skills, delivered work efficiently on time.

EXTRA CURRICULAR

2020	97 Percentile	CAT Exam
2018	What the hack tech challenge, Onsite Round	Airtel Hackathon
2018	Global business model competition, Onsite	IIT Kharagpur
